Dear Community Leaders,

We believe that strong and positive relationships are vital to our community's success. This Guide's original creation in 2019 provides a good example; our office relied upon assistance from the University of Alabama's School of Social Work to find every church in Tuscaloosa County, and our social work interns made every effort to contact the 300+ faith leaders from those houses of worship. Various churches paid for printing over these years, and multiple businesses and the Tuscaloosa River Market provided support for our Faith Based Community Resource Summit for which the Guide was originally produced.

Adding to those efforts is the help provided by Shelton State Community College Adult Education and by the West Alabama Chamber of Commerce, whose staff routinely assist with job training and job placement in our community. As an office, we strive to benefit our citizens in traditional and non-traditional ways, and strong relationships help all of us to help others.

We hope that this Guide encourages the building of new relationships between those who need services and those who provide them, and we appreciate the assistance with this collaborative effort. We share the desire that it helps to decrease the burdens of those with the greatest needs so that they may more fully experience life's joys.

With Gratitude,

A handwritten signature in black ink, reading "Hays Webb". The signature is written in a cursive, flowing style with a large initial "H" and a long, sweeping underline.
